

Azusa

all wood
dining chair

Azusa is a refined all-wood dining chair shaped by clean lines, gentle curves, and a light architectural frame. Its softly curved seat and broad backrest balance comfort with a crisp, modern silhouette.

Designed to move easily between restaurants, cafés, hospitality spaces, workplace dining areas, and residential interiors, Azusa brings warmth without visual weight. The chair pairs naturally with wood, stone, metal, and laminate tables.

Crafted in beech, Azusa is offered in two quick-ship finishes: Oiled Natural Beech, which highlights the warmth and grain of the wood, and Black-Stained Beech for a more graphic, architectural expression.

Stocked in the USA for quick shipment, Azusa is an easy-to-specify choice for projects that require dependable availability, a versatile aesthetic, and a distinctly modern all-wood chair.

Azusa

counter stool
barstool

The Azusa family extends its clean, all-wood construction into counter and bar heights. The same softly curved seat, broad backrest, and slender beech frame give the stool a light, architectural presence from every angle.

A built-in wooden footrest and two seat-height options make Azusa easy to specify for kitchen counters, bars, cafés, restaurants, hospitality spaces, and workplace settings. Available in 65 cm and 75 cm seat heights, the Azusa Stool offers a consistent design language across dining, counter, and bar applications. The natural finish emphasizes the grain and warmth of beech, while Black-Stained Beech gives the silhouette a sharper, more graphic character.

Pair the stool with the Azusa Chair for a coordinated seating program across a single project.
